

Exploiting the Course Book and Authentic Material

Session 8

What Materials do you use?

Knowledge Sharing focus on what types of materials you use in your class, including:

- Prescribed Course Materials
- Supplementary Materials
- Online resources
- Teacher-generated material
- Authentic Material

SARS-ing the Course Book

Select - Look at the course book and choose material you are going to use.

Adapt - Change the material (if necessary) to suit your learners. Always ask yourself 'Can I make this more interactive?' If the answer is 'YES', adapt it.

Reject - Reject material that is not relevant to or suitable for your learners.

Supplement - If you have rejected material you need to supplement to replace it. You will always need to supplement with extra activities as there are seldom enough practice activities.

Task

Get some sample materials

Course Participants have to SARS selected Units

Further tasks available in PDF Handouts in
Material

TKT Material

Look at the TKY Material on Resources and Materials

Authentic Material

Powerpoint on Authentic Material in the Material
